

# **Seymour Community School**

## **Non-Guardian Co-Curricular Transportation**

---

Our practice for transporting students to and from school sponsored student activity events is that the students ride to and from the event in the vehicle provided by the school district. However, in extenuating circumstances parents/guardians may take their child home. If so, parents/guardians can sign them out with the advisor/coach. If an adult (not parent/guardian) is transporting the child the following form must be completed by the parent/guardian, turned into the advisor/coach beforehand, and signed by the transporting adult at the location of the event.
